## PELTIERELEMENTIT

katso [www.spelektroniikka.fi](http://www.spelektroniikka.fi)

Body shaker,"jumputuksen lisäjä". Kaiutinlinjaan liitettävä"kaiuttimen" kela ja magneetti, joka on kiinnitetty metallirunkoon siten,että kela pääsee liikkumaan edestakaisin ripustuksensa varassa, kun kelaan syötetään esim. subbarilta tulevaa matalataajuista signaalia. Metallirunko kiinnitetään esim. auton lattiaan, sohvän selustaan/pohjaan, kiikkustuoliin jne.. ja erotetaan kiinnityspinnasta mukana seuraavien kumisten holkkien avulla. Impedanssi 2 - 4 ohm, kytketään sarjaan kaiutinlinjan kanssa. Halkaisija 87mm, lipan halk. 118mm, korkeus 35mm. Maksimi tehonkesto 100W. 15.00€
